12-85- Collection Showcase: Art For Venezuela

NOTE FROM THE EDITOR

Welcome to Tweak Magazine,

The @TwistedTweakNFT community created this art magazine with the intention of sharing the unique art created by the NFT community with the rest of the world. This week we share a special showcase of art dedicated to social impact.

The recent natural disaster in Venezuela has left many with no other place to turn to in their time of need. Many artists have donated their skills and artwork to help raise funds to go towards those who are in need. We are happy to partner with @BRAINFROGXLM to showcase the art of the Signal Relay: Art for Venezuela collection.

We tweaks have been proud to continue sharing the wonderful art being created by artists from all blockchains and are working to find new ways to present the works to those outside of our ecosystem. If that is you then welcome to our zany and expressive world 😊

Thank you for supporting the arts in whatever fashion you do.

-Chumwizards

P.S. Not all art presented is a static image. Artwork titles with an asterisk * are best viewed using the link to the work to get the full experience

THE TWISTED TWEAKS

Tweaks are the digital, artistic representation of many internal struggles humans face. The anxieties and complex emotions that people feel every day should no longer be looked down on, rather accepted and loved because that makes you who you are.

Twisted Tweaks are the flagship collection for the Tweak world since 2021. Minting for over 3 years using rewards based airdrops, they are the longest minting 10k PFP collection.

You can receive a new mint by purchasing one on the secondary market.

Twisted Tweaks were created by Tweak Labs, a creative brand building at the edge of innovation in web3, AI, and fashion.

EVERY JOURNEY
BEGINS ALONE.
NO JOURNEY
ENDS THAT WAY.

ISOLATED is an exploration of self discovery through solitude and the power of connection. It is an exhibition that unfolds over time, where collecting becomes part of the artwork itself.

ABOUT THE EXHIBITION

We often associate Isolation with absence, but for me it became a place of discovery. ISOLATED was never meant to exist. It came together naturally, and I only realized I was building a collection near the end of the process.

Looking back, I noticed that each artwork wasn't connected by the solitary figure, but by the story they were telling.

We often see solitude as something to escape, when in reality it's something to understand.

Every chapter represents a different stage of that journey from uncertainty and isolation to acceptance and growth.

Through this collection, I invite others to experience or relate to those feelings. I know many artists have gone through them, or are living through them right now.

ISOLATED isn't meant to resonate with everyone, and that's okay.

But at its core, this collection exists to bring people together.

Without the people who choose to take part, it will never be complete.

THE THREE STAGES

01.

THE CHAPTERS

Ten Narrative 1/1 artworks that tell the story of ISOLATED

02.

THE EVOLUTION

The community comes together. Each piece evolves through collective participation and shared energy. Without the community, story cannot reach its final form.

03.

OPEN EDITION

A final edition created so anyone who connects with the exhibition can become part of its story. This edition exists because of you

[CULTURE MONKE]

Came for the monke.

Stayed for the art.

Glitch blooms in oldcode
Experiments laugh, then merge
Monke keeps the thread

What is Culture Monke

Culture Monke is me gathering the routes my work has taken since I entered web3 in 2021 and letting them live inside one recognizable body. Glitch, texture, code systems, hand-made mess, hard edges, soft accidents - not as separate eras, but as one continuing thread. It is a checkpoint, not a recap. A way to consolidate the experiments, then move forward with a clearer center of gravity.

What about my glitch

People can get weirdly territorial about glitch. If it comes from code, a custom tool, an intentional system, or a controlled break, someone will always say it is not true glitch. That argument misses the point. My work lives in that tension: structure pushed until it fractures, rules built so they can misbehave, clean systems made to produce something unstable. If my glitch does not fit your definition of true glitch, then by definition, it is true glitch.

Why Monke

Because the monke was the obvious myth to return to. Many of us entered this space through a character, a signal, a shared joke that somehow became a serious doorway. For Culture Monke, the character holds the canvas close to his heart: part mascot, part witness, part collector, part believer. A consistent figure made sense because the styles are varied. The monke becomes the thread, and the art becomes what he carried us toward.

A Botanical Plate of Wishes

Samanea samán

Fam. *Fabaceae* - Subfam. *Mimosoideae* - syn. *Albizia saman*

The *samán* is a beloved tree for the Venezuelan people, it's affectionately known as "dormilón" because its leaves folds close each evening and open again with the morning sun. Its canopy is wide, low, and umbrella-shaped, often spreading wider than the height of the tree; the *samán* can shelter dozens of people beneath a single crown. During hot days, its shade becomes a natural gathering place — families rest together, friends share meals, musicians play instruments, children play beneath its branches.

For generations, the *samán* has stood as a quiet centerpiece of community life: a place people return to because it offers rest, shelter, and togetherness. To sit beneath a *samán* is to feel held by something far older and larger - a small, ordinary joy that has shaped Venezuelan life for centuries.

1. *Pinna*: may there be many,
for shade and rest

3. *Truncus*: may it be strong,
for support

4. *Legumen*: may it be cozy,
just like a home

6. *Sutura*: may it be secure,
but free at the same time

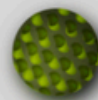

5. *Semina*: may it be magical,
for joyful growth

2. *Foliolum*: may they be light in weight,
for peace and recovery

9. *Corolla aperta*: may it be beautiful,
to feast all hearts

8. *Pedunculum*: may they grow, and bring richness

7. *Capitulum*: may it be full of love, to be spread forever

10. *Filamenta staminum*: may they be brothers and sisters, they're
stronger together

11. *Calyx*: may it be steady,
to bring harmony and balance
